

Digitally transform care operations and experiences

By understanding how staff, equipment, and patients move through the care delivery process, we uncover waste, optimize workflows, and help your staff and patients feel seen and valued.

Using AI, IoT, and RTLS, we create responsive health systems that anticipate and adapt to constantly changing operational demands and human needs.

Care Operations

Transform daily operations for optimal asset utilization and exceptional patient outcomes. Eliminate inefficiencies, bottlenecks, and friction throughout your care delivery journey.

Medical Device Management

Pinpoint the asset location, end equipment waste, and improve utilization.

Wheelchair Tracking

Quickly access wheelchairs whenever needed, improve utilization, and reduce health risks.

Bed Management

Optimize bed capacity, patient intake, and patient flow.

Staff Experience

Empower your clinicians to deliver quality care in a safer and more productive environment, with the right resources precisely where and when you need them.

Staff Safety

Enable immediate responses and proactive measures to protect your staff.

Staff Journey Analytics

Streamline workflows, reduce friction, and eliminate staff burnout.

Hand Hygiene

Automate compliance & dispenser supply, monitor events, and prevent infections.

Medical Device On-Demand

Help clinicians instantly locate ready-to-use assets and focus on patient care.

Patient Experience

Orchestrate patient journey and digital services for optimal patient flow, outcomes, and satisfaction. Put patients back at the center of care delivery and see through their journey.

Patient Elopement

Avoid patient elopement, wandering, or abduction.

Indoor Navigation

Provide patients with real-time maps with step-by-step directions.

Patient Room Display

Automate digital signage alerts about care providers before delivering care.

Why Kontakt.io?

Easy

Simple to use. Easy to buy.
Ready to deploy.

Fast

Industry's #1 time to value.
Delivered as a service.

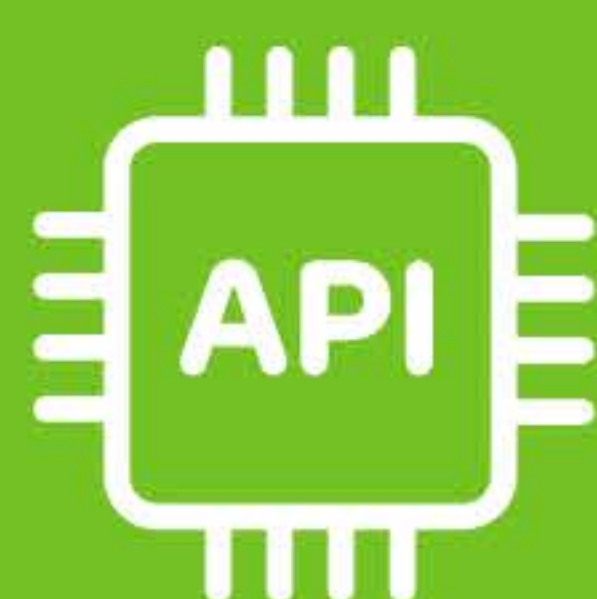

Scalable

Start small, scale, and create
value at each step of the way.

One Single Platform

Unlock 20+ digital applications for assets, staff, and patients.

AI Powered

IT Friendly

API First

HIPAA Security

Jim Hinton

Former CEO of Baylor Scott & White Health,
and former Chair of the American Hospital Association

"Kontakt.io is genuinely committed to improving operational efficiency, reducing the burden on nurses and other staff, and ensuring that patient care is focused on the patient as opposed to other distractions."

"Working with Kontaktio was incredibly simple. The set up took just days, they preprogrammed the tags to work with our system and once the devices shipped, we just plugged them in and that was it. It's a very simple process."
